

It All Starts Here...

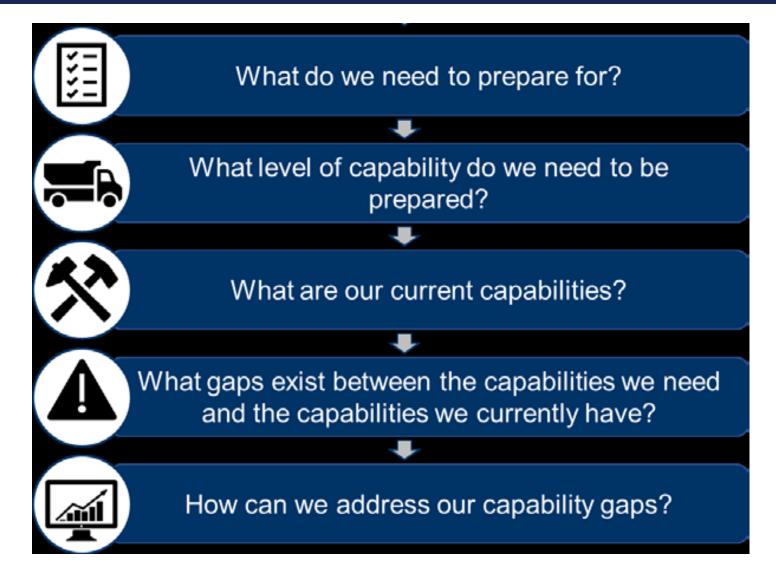

Peri Rogowski, MS, MEMS, NREMT Division of Planning, Training, Exercise, Grants and Community Engagement Indiana Department of Homeland Security

It Begins with an Assessment

- Our nation faces threats & hazards, including acts of terrorism, cyber attacks, pandemics, and catastrophic natural disasters
- Through events like 9/11, Katrina & Columbine our approach to emergency management & preparedness have changed
- Communities now must assess, plan, build, sustain, and deliver core capabilities through the National Preparedness System (NPS)
- The Threat and Hazard Identification Risk Assessment and Stakeholder Preparedness Review (THIRA/SPR) is the 1st step
- Assesses 32 core capabilities across 5 mission areas: Prevention, Protection, Mitigation, Response, and Recovery

Helps communities answer the questions

How can you help?

Consider...what's the worse case scenario for your county?

tornado

active shooter

catastrophic earthquake

ransomware attack

- Do you know your county's current capabilities and capability gaps?
- Please continue your support of your County Emergency Manager
- Assessment results should be used for planning & grant applications

THIRA-SPR Quick Summary

The table below provides a brief overview of some of the inputs you have provided through the THIRA/SPR process.
